Data Deletion Policy for J c chat

At J c chat, we take user privacy and data protection seriously. This document outlines our data deletion policy and explains how users can request the deletion of their data.

Data Deletion Process:

- Users can delete their data from within the app by ensuring compliance with user data deletion requests. The process is initiated within the app's profile section, where users can request the deletion of their account. Upon clicking the "Delete Account" button, users are presented with a confirmation popup offering options for account deletion or cancellation.

- When a user requests data deletion, we promptly delete all data associated with their account from our servers.

- Data deletion includes [list the types of data deleted, e.g., user profiles, activity logs, etc.].

1. Detail of data deletion process
   Data Deletion Process Documentation: Detailed documentation describing the steps involved in the data deletion process, including user interactions and system responses.
2. **User Interface Screenshots**: Screenshots of the profile section and the confirmation popup to provide visual guidance for users.

3. **Code Snippets**: Code snippets illustrating the implementation of the data deletion feature within the app.
